High tech display protection

THE PROBLEM:

Due to daily use, mobile phone displays become scratched very quickly. Not only do ugly scratches limit the readability of the display, but they also reduce the value of your mobile phone. As a rule, conventional protective films for displays become scratched very quickly and must be changed frequently.

THE SOLUTION:

The DISPLEX PROTECTOR sets a new standard in the area of display protection. This high tech film is extremely scratch-resistant, fits precisely and can be removed at any time without residues. Simply stick the protective film on the display and the amazing protective effect provides a lasting, clear view right away whilst protecting your phone's value. One extra feature is that you will receive a 2-year warranty against scratches. The DISPLEX PROTECTOR is available for all common models.

HOW IT WORKS:

During regular use, the DISPLEX PROTECTOR keeps the display free of any scratches. The great elasticity of this completely novel high tech film provides a type of self-repairing (memory) effect. Scratches in the film disappear automatically after a short time! Thus, neither scratches nor dirt can damage the display. The DISPLEX PROTECTOR offers reliable and permanent protection for your display - simply amazing!

THE ADVANTAGES:

- 100% protection from scratches and dirt
- Fits display layout exactly
- Self-healing high tech plastic film
- Can be removed without residues
- Available for all common models
- 2 years guarantee
